IHOR YAKIBIUK

WEB DEVELOPER

PROFILE

Welcome👋 I'm a Frontend developer with one and a half year of commercial experience creating various web app. You can see my skills below. Also i have implemented several projects such as landings, web applications and browser games. I have an experience of working in team and leading team of 2-4 people. At the moment, I am working on my personal project: a web app that provides weather forecasting.
